Wine 101 - Tasting The Basics – Saturday February 25, Noon

Join Chef Pellegrino for an afternoon of exploring one of his greatest passions, the world of wine. The class will work on understanding some of the basic components of wine; acidity, tannin, oak and other common aromas by tasting six different wines. Chef will also discuss ordering and storing wine in his no nonsense approach and total irreverence for wine snobbery. The intimate setting allows for students to ask questions and enjoy some truly great wines. Tasting sheets and wine friendly snacks are included. \$59

Wine 201 – The Old World vs. The New World – Saturday April 29, Noon

Although these lines are starting to become a little blurry, it is still relatively easy to divide the world of wine into two categories...the Old World and the New World. Join Chef Pellegrino as he takes the class through a comparison tasting of eight wines that demonstrate the differences between this division of the great wines from around the world. Tasting sheets and wine friendly snacks are included. \$69
